To Whom It May Concern:

Turnkey Programming handles our webinars and we have been extremely pleased with the results, as have our members. They treat each of our participants with the utmost care and professionalism. They have also helped us increase access to these webinars by taping them and making them available through our website. We are pleased with the relationship we have with Turnkey Programming and highly recommend the products and services they provide.

Additionally, we also have several of our members using their On Demand Delivery System and have heard great things about the results they have had with this program. Please feel free to contact my office if you wish to discuss our use of their products and services.

Best Regards,

*Larry W. Adams*
